

GOVERNOR'S TRANSPORTATION VISION PANEL

Overview

The Governor's Transportation Vision Panel is a yearlong effort to develop a series of recommendations to the Governor that address transportation issues across all modes and regions of the state.

Members of the Vision Panel include legislative representatives, business owners, and civic leaders from across Oregon.

Under the leadership of Governor Kate Brown, members of the Vision Panel have been charged with the following tasks:

- Assess the current conditions of Oregon's transportation system
- Develop a long-term vision for the future of Oregon's transportation system
- Create a series of recommendations that can be enacted in the near-term to lay the groundwork for this vision

The 30-member Panel has spent the past several months developing a series of [preliminary findings](#) on the current and future needs of Oregon's transportation system. Governor Kate Brown has charged the Panel with delivering a final report by the spring of 2016 after engaging in a series of regional forums across the state.

This final report will assist the Governor and other policymakers in assessing the current condition and priority needs of Oregon's transportation assets, and serve as a guiding document for how the state should shore up and prioritize investments in the transportation system over the next several years.

Vision Panel representatives will provide a brief overview of the Panel's preliminary findings to date, and lead a conversation to elicit participants' perspectives on how the transportation system can support their region's economic needs and priorities. The Vision Panel will use regional forum participants input to refine their recommendations to the Governor on the future of Oregon's transportation system.
